

University of Guelph Young Liberals

General Meeting October 30, 2013

New Business

Fundraising

Working on developing a fundraising program over the Christmas break and then implement in January.

A possibility for a fundraiser is to sell t-shirt with Justin Trudeau on them. This is an idea that will be explored further going forward.

Membership

Increasing membership needs to be a priority. Growing the club is essential for it to continue. There are positions available on the executive that can be filled by new members.

Club Days will be a big push for membership as well as setting a direction for the semester.

Biennial

Biennial is being held in Montreal from February 20th -22. The deadline to apply to be a delegate is in mid-December.

The club can send a number of delegates from the club to biannual. Four delegates can be sent from the club as well as a few spots through the federal riding. The club will be looking to booking accommodations for everyone in Old Montreal close to where the event is being held.

With the biennial convention you need to submit intent to stand.

How does it work? There is an online form outlining that you are intending to stand for election to go to the convention.

The club can send people through home ridings and backfills.

It is a good opportunity to learn about policy and to get experience at the federal level.

Attending helps you get perspective on how things work at a higher level.

Social

There is an all party social being held on Friday November 8th, hosted by the Political Science Society. It would be a good way for the different clubs to mix and mingle and should be a good time.
